

Setup guide for VilMer solution at Norlandia Locations

July – August 2024

Brief introduction

In August 2024 we are implementing the VilMer solution at 10 Norlandia nursing homes in Sweden.

The solution is going to create an increase of physical activities, as well as digital experiences, in form of our specialized streaming platform for the nursing homes, and the activity plan keeping it all organized.

All this is handled with applications and web-apps on iPads, which is what we need your assistance to set up and install on site.

There will be two different setup solutions. Both solutions will be present on all locations.

One solution is for iPads mounted on a wall, and connected to a TV

Another solution is for flexible iPads to use in hand.

On the next pages, you will find an overview of the tasks that needs to be carried out, as well as in depth descriptions.

If you have any questions, you are welcome to contact me at

Overview of tasks

Wall mounted iPad setup

1. Unbox devices and accessories
2. Turn on iPad and connect to internet
3. Wait for iPad to configure
4. Install wall mount and attach iPad
5. Attach cables
 - AV adapter in iPad
 - Power cable in AV adapter
 - HDMI cable in AV adapter
 - HDMI cable in TV HDMI slot 1
6. Confirm that TV and iPad connects and shows content

Flexible iPad setup

1. Unbox devices and accessories
2. Turn on iPad and connect to internet
3. Wait for iPad to configure
4. Put iPads in covers
5. Hand over to Nursing home staff

Overview of locations and amount of iPads

1. Unbox devices and accessories

For wall mounted iPads

1. iPad – Power adapter included
2. Power cable – USB C > Lightning
3. AV Adapter – HDMI > Lightning
4. HDMI cable
5. Deltaco Office Wall Mount

For flexible iPads

1. iPad – Power adapter included
2. eSTUFF Folio Cover

2. Turn on iPad and connect to internet

Language:

Swedish

Internet Access:

Wi-Fi:

Norlandia

Password:

Ikomm14

If this network is not available, it will also be possible to use the one below instead.

Wi-Fi:

Norlandia Guest

Password:

Gjestenett

3. Wait for iPad to configure 1/2

For wall mounted iPads (Same for both)

When a tablet is turned on for the first time, the flow will be as demonstrated in this video:

3. Wait for iPad to configure (Print version)

For wall mounted iPads (Same for both)

When a tablet is turned on for the first time, the flow will be as demonstrated below

3. Wait for iPad to configure 2/2

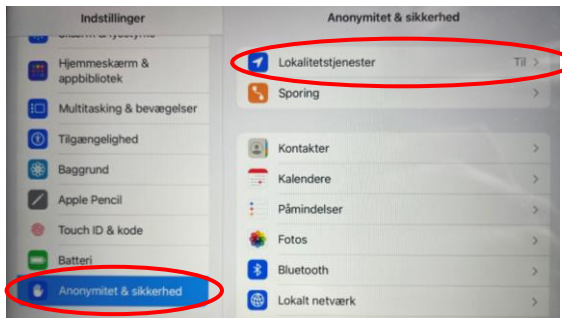

For wall mounted iPads (Same for both)

When the iPad is configured, the screen should look like this image*

Apps showing (ONLY):

1. Settings
2. Digitale Oplevelser
3. MinMemoria
4. Support
5. Activity Plan
6. GoTo Resolve

Make sure the time on the device shows correctly. If it is wrong, turn on location service:
Settings > Anonymity and security > Location services

*Icons and background image may vary
Apps in bottom bar is "last used" so may also vary.

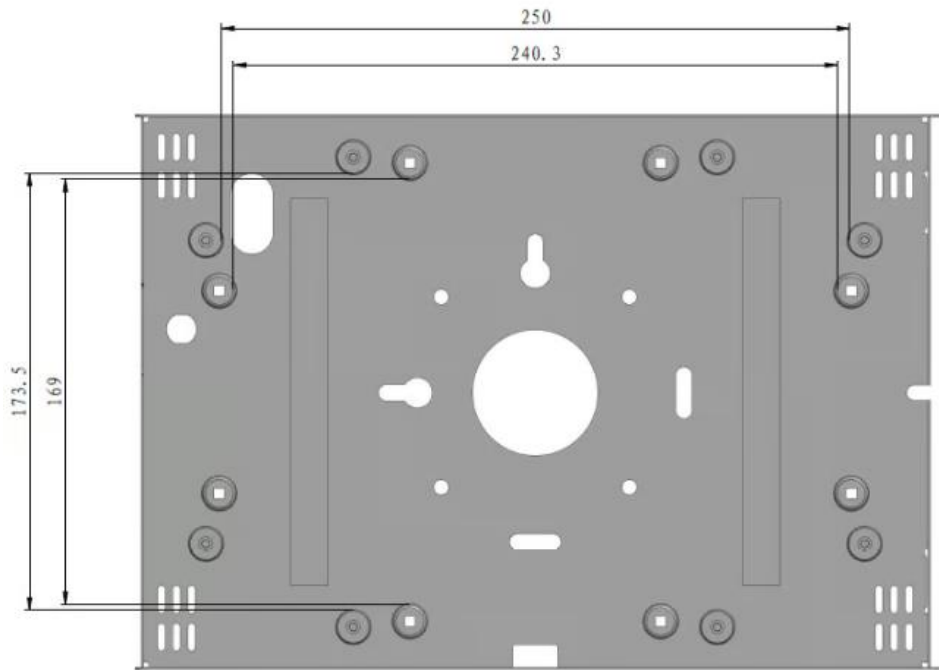

4. Install wall mount and attach iPad

For wall mounted iPads

The wall mount is a Deltaco Office Wall mountable mounting plate for tablets, anti-theft.

It is to be installed close to a TV, and in a manner so it is easy to access for the staff, and can be connected to power.

The wall mount requires 4 screws for installation.

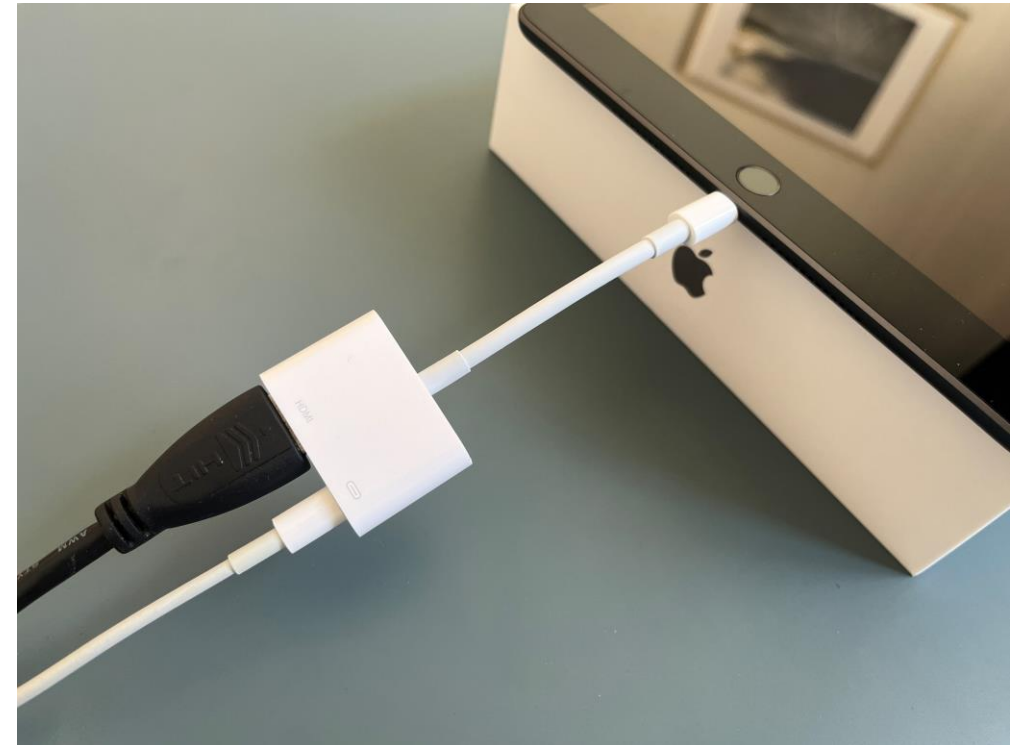

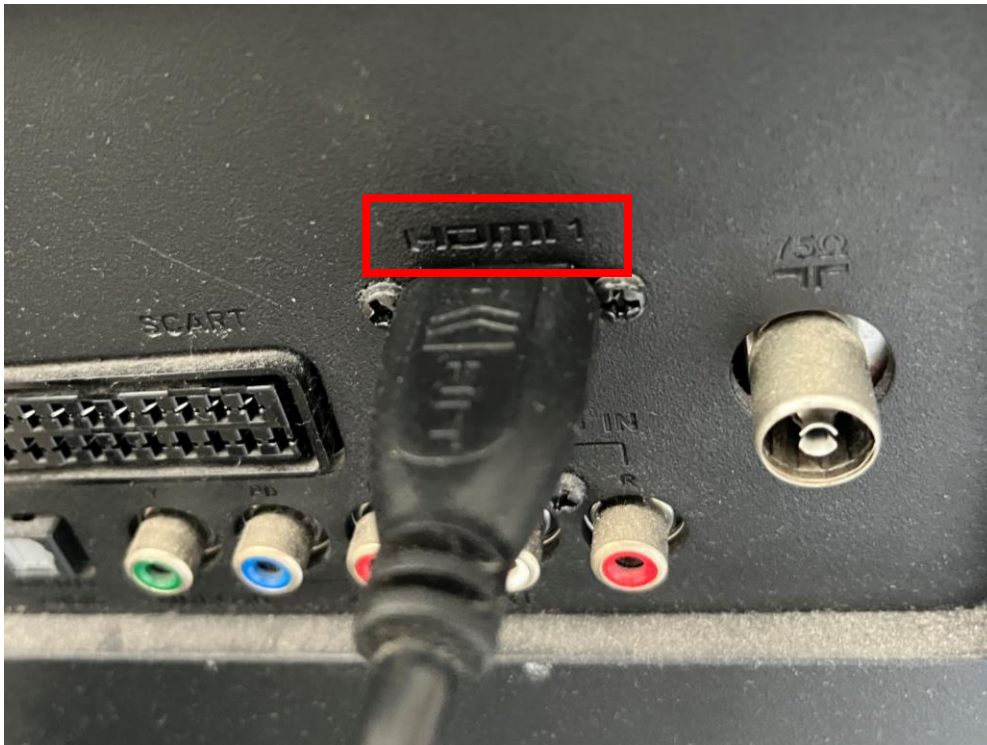

5. Attach cables

For wall mounted iPads

After attaching the iPad to the wall mount, the cables should be attached and connected to the TV.

TV models and make will vary but the HDMI should Always be connected to the **HDMI 1** port

6. Confirm: TV and iPad connects and shows content

For wall mounted iPads

Turn on the TV, change source to HDMI1, turn on iPad.
If they connect successfully, it should look like this

*Not complete accessory setup
Just connection between iPad and TV*

4. Put iPads in covers

For Flexible iPads

The covers for the flexible iPads, are fairly simple silicone covers. Make sure they are all unpacked and iPads are attached.
